

Cloud Director Health Check

Running VMware Cloud Director as a service provider is a key success factor. comdivision's senior architects and consultants have a long-standing global experience with roll-out and operations of Cloud Director. Based on this experience we have developed a health check which helps you to ensure that your infrastructure is in a healthy state and operated most efficiently.

Why/Outcome

Operating Cloud Director and its underlying infrastructure with vSphere, vSAN (optional), NSX and other products like vRealize Operations Manager can be complex. During our health check we will ensure that all dependencies are set and everything is operated in a supported and most efficient way.

What

1. Analysis of your existing Cloud Director infrastructure.
2. Analysis of the underlying vSphere, NSX and vSAN infrastructure.
3. Validation against current best practice and efficiency optimizations.
4. Update/upgrade readiness assessment.
5. Development of additional high-level offerings for customers.

Products aligned with this engagement

- VMware Cloud Director
- VMware vSphere
- VMware vSAN (optional)
- VMware NSX-T/NSX-V

High level project timeline

- 1-2 days onsite
- Report within 1 week

High-level project timeline

After an initial kick-off workshop, the comdivision consultant will access your infrastructure and analyze it for current health, compliance with best practices, support and compatibility matrix. In a next step we will discuss current customer service offerings and potential new service offerings. In the final hand-over workshop, we will present the findings, hand over the report and provide guidance for potential next steps.

Prerequisites

- VMware Cloud Director deployed.
- VMware vSphere, NSX and optional vSAN deployed.
- Administrative access to all these systems.
- Service definitions on customer offerings.

Additional options

1. VMware vRealize Operations Manager analysis.
2. Automation optimization and health check.
3. Upgrade of the instance / infrastructure.
4. In-Depth business consulting.

“The comdivision group – founded in 1996 – provides outcome-oriented IT strategy consulting and implementation support in DACH and the USA. The comdivision group was the first partner in EMEA to achieve all 5 VMware Master Service Competencies and was recognized as a Professional Services Partner in 2019. Most of the architecture and consulting team – including two VMware Certified Design Experts (VCDX) – are also VMware Certified Instructors (VCI), so you have the peace of mind to be taken along through each step of the way, preparing you for successful Day 2 operations. If you need assistance beyond that, ask for our cd:knowledge product, an expert-on-demand service that gives you up to 24/7 access to our specialists.”
